

# How to lay slabs

## using Blue Circle Cement

### Materials and Tools

- Blue Circle Slablayer
- Water
- Rake
- Watering can
- Water
- Spirit level
- Rubber mallet
- Brush
- Jointing sand or mortar
- Safety gear

### Step by step guide

- 1. Prepare the Area** - Level the area for the new slabs and make sure the ground is stable and firm.

- 2. Pour out the Slablayer Mix** - Pour the dry Blue Circle Slablayer mix from the tub straight onto the prepared ground and rake it level.

- 3. Sprinkle with water** - Sprinkle the Blue Circle Slablayer with water using the watering can and rake level again.

- 4. Lay the Slabs** - Lay the slabs directly onto the wetted Slablayer and tap into position using the mallet. Check final levels and alignment with the spirit level.

After allowing the slabs to cure as directed on the tub, pour jointing sand between the slabs and brush to fill the joints evenly.
